DuoPass

Radio Transmitters with Prox Technology

The convenience of radio transmitters blended with the accessibility of proximity cards. Total access to any point of entry with the simple use of **DuoPass**.

Remote Control Solutions

Proximity technology available in all RCS transmitters

DuoPass only uses 1 five-digit code, with a facility code, to minimize memory usage.

Transmitters available in these operating frequencies

- 433 MHz 26 Bit Wiegand
- 418 MHz Dual Bus Code
- 318 MHz 26 Bit Wiegand
- 295 MHz 30 Bit Wiegand

Transmitter Specifications

- Model #
 - **RCS-433CTG*** 433MHz
 - **RCS-418CTGR*** 418MHz
 - **RCS-318CTB*** 318MHz
 - **RCS-318CTYL*** 318MHz
 - **RCS-295CTR*** 295MHz
- Number of Buttons 1, 2, or 4**
- Power Supply GVDC
- Battery 1 x 12V 23A Alkaline
- Facility Codes 256
- Code Combinations 65528
- Dimensions 2.5" x 1.5" x .625"
- Warranty 6 Month Battery

* Indicate the Model # then the following:
1, 2 or 4 for the amount of buttons; then
A or H for AWID or HID Technology

** 4 buttons only available in 433MHz transmitters.

	READ RANGE **	TECHNOLOGY	SECURITY	OPERATING TEMPERATURE
	2" to 4.5" (5.1cm - 11.4cm)	Passive, iClass Proximity	Over 1.9 x 10 ²⁵ unique codes available	-50° to 160° F (-45° to 70° C)
HID Corporate 1000 coding now available.				
	2" to 4"	Passive, Proximity	72,058 trillion unique codes	-31 to 150 F (-35° to 65° C)

** Depending on local installation conditions.
